TREATMENT

Nourishing, firming, toning.

Nourishing, firming, toning. It is an 'exceptional preventive treatment against active relaxation skin and body imperfections caused by stretch marks and skin striae.

It carries out an intensive action to rapid and noticeable effect after a few weeks of application: the body skin appears firmer, toned and elastic; the skin takes on a silky smooth appearance of the skin young and healthy.

Apply according to the techniques used.

TONE PLUS is very useful:

- In pregnancy, starting as early as the first months to prepare the skin for subsequent tensions; It is ideal after birth, 1 or 2 times a day.
- During the weight-loss diets: 1 or 2 times a day as appropriate.
