## TREATMENT

**Adjunct in the treatment firming and toning.**

Treatment **TONO PLUS** Serum born from cosmetic research of Keep young, has been specially formulated to optimize the activity of the device Model young, Model Pluss, Keep Shape and treatments with mud Multi Alga.

The active ingredients contained in the product, in a synergistic activity with the innovative methodology used in non-invasive treatment, allow to treat for the first time with satisfaction and great results, areas of the body affected by imperfections related to the presence of atonicity and stretch marks.

To obtain positive results is therefore recommended to use in these treatments, Only TONE PLUS Serum and not other products.

Apply the product directly on the skin, on the areas of application of the device electrodes. Do not use on damaged skin or congested.
