

NUT PEELING

Renovator treatment with walnut microspheres

Bottle 200 ml Cod. 10408T

Bottle 100 ml Cod. 10408

CHARACTERISTICS

Transparent gel with walnut microspheres

ACTIVE PRINCIPLES

WALNUT SPHERULES

TREATMENT Exfoliating, moisturizing, smoothing.

Is an exfoliating gel that removes dead cells and impurities from the epidermis.

It allows the skin to renew itself quickly and to prepare it for subsequent treatments.

The periodic application, especially useful during season changes, deep cleanses without drying the skin, makes it smooth, bright and extremely soft.

An even layer of product on the area to be treated, leave on for 10-15 minutes and start massaging insisting on thicker areas.

Rinse thoroughly and completely remove with detergent solution, then proceed with the next treatment.
